Due to the labour action the principals were not able to engage the school council or staff as they would have liked. The principals did a deep dive into the data from last year and came up with a plan of how to move forward this year. This is year two of a three year plan so no major changes, just a few tweaks. Feedback was received from the education director and they are working on finalizing the revisions. Once finalized the School Improvement Results report, School Development Plan and the fees report to parents will be posted on the school website. This will be done by November 28th and parents will be informed by the parent weekly.
